

*** REMINDER TO 6TH GRADERS ***

All students born after **January 1, 1997** and entering the **6th grade** will now be required to receive one dose of **Tdap (Tetanus, diphtheria, acellular pertussis)** given no earlier than the 10th birthday and one dose of **a meningococcal containing vaccine (meningitis)** such as the medically-preferred meningococcal conjugate vaccine. Any student who received a Td booster dose less than five years prior to entry shall not be required to receive a Tdap dose until five years have elapsed from the last DTP/DTap or TD dose.

Written proof must be provided to the Brooklawn Middle School Health Office as soon as possible if you did **not** give this information to your child's elementary school nurse.

As per state guidelines, failure to provide this information will **exclude** your child from school until vaccines are completed and proof presented.

Please mail any documentation that you have to Brooklawn Middle School to avoid your child not being able to begin school in the fall. Any completed physical forms should be mailed as well.

If you have any questions, please feel free to leave a voice mail at 973-428-7551 ext. 2 and I will return your call.

Thank you so very much for you cooperation in this matter.

Hope you are having a great summer!

See you in September!

Ann Butyn RN
